PROFESSIONAL SUMMARY

Product Manager and Co-Founder with a track record of shipping AI-powered MVPs from user research through launch, including an agritech platform ranked #1 out of 10 competing teams at a product demo day. Currently co-leading product strategy for a 7-person team building an AI-powered startup validation platform, and previously led an 8-person cross-functional team as Product Owner on an AI-powered project planning platform. Certified in Product Management through Prodcademy and FUSE Varsity.

CORE SKILLS & TOOLS

Product Discovery & User Research • PRD Writing & Documentation • MVP Development & Iteration • Agile & Scrum Execution • Roadmapping & Feature Prioritization • User Stories & Acceptance Criteria • Cross-Functional & Remote Team Leadership • Jira • Google Drive • Wireframing (Figma-based flows) • Data-Driven Decision Making

PRODUCT EXPERIENCE

Co-Founder & Product Manager | *Tiqra — AI-Powered Startup Validation Platform* Jan 2026 – Present

- Co-founded and lead product for a 7-person cross-functional team (UI/UX, front-end and back-end engineering, data analytics, product design, and social media) building an AI-powered startup validation platform.
- Authored the PRD defining Tiqra's core "Truth Layer" concept, a real-time filter that screens out unreliable survey responses before AI-driven feasibility analysis, addressing a key reliability gap in existing validation tools.
- Currently driving the product through waitlist stage ahead of public launch, coordinating design, engineering, and data workstreams toward release.

Product Manager | *ProjectPilot — AI Project Planning Assistant* Jun 2026 – Jul 2026

- Led a cross-functional remote team of 8 across Jira, WhatsApp, and Google Drive as Product Owner for an AI project planning assistant built for student teams.
- Authored the initial PRD, then ran a 30-respondent user survey and revised product scope based on the findings, sharpening feature priorities before development began.
- Built a Jira Scrum board with epics and sprint plans, and directed wireframe/UX flow documentation and a KPI dashboard sourced from the research data.
- Closed Project Charter gaps, including stakeholder mapping and approval sign-off, to keep the team audit-ready ahead of milestone reviews.

Product Manager | *AgroLynk — AI-Powered Agritech Platform* Nov 2025 – Dec 2025

- Conducted user research with 20+ smallholder farmers to identify critical pain points in crop disease detection and advisory access.
- Authored and iterated the PRD, aligning engineering and design around farmer needs and technical constraints.
- Coordinated MVP development and launched a mobile-first platform delivering AI crop insights, weather alerts, and peer learning, achieving 80% reported user satisfaction in early testing.
- Ranked #1 out of 10 competing teams at Prodcademy Demo Day, with judges highlighting the product's real-world impact on farmers' problems.

Product Manager | *Sprint Maestro — AI Sprint Planning Tool* Nov 2025 – Dec 2025

- Led a cross-functional team of 5 to design and launch an MVP AI-driven sprint planning tool for agile teams.
- Authored the PRD and user flows focused on automated backlog generation and capacity-aware sprint planning.
- Onboarded 10 early users to test the MVP; testers reported an 80% reduction in time spent turning a PRD into a sprint-ready backlog.

LEADERSHIP & VOLUNTEER EXPERIENCE

Team Lead | *Prodcademy* Sep 2025 – Dec 2025

- Directed a team of 5 to deliver a complete PRD within 2 weeks; received strong feedback from cohort facilitators for team leadership and clarity of the final PRD.

Team Member | *DevFest Ilorin*

- Managed registration data for 500+ attendees, improving event efficiency and participant experience.

CERTIFICATIONS

- Product Management Certification — FUSE Varsity (10 weeks) — 2026
- Professional Product Management — Prodcademy (10 weeks) — 2025

EDUCATION

University of Ilorin 2024 – Present

Bachelor of Science in Industrial Chemistry
